Master Of Computer Applications

Year of completion: Pursuing

C.G.P.A.: 6.91

Aligarh Muslim University

Department of Computer Science

Bachelor's Of Science (Computer Applications)

Year of completion: 2024

C.G.P.A.: 6.9

Aligarh Muslim University

Department Of Computer Science

Projects

University Scholar Publication System

In this project, I created a Web Application which helps students to find scholarly work of their faculty members using their email and author name, using **HTML, CSS, Django Web Framework and Python**. This project utilise google scholar api to fetch results directly from google scholar server and show them in a tabular form.

CampusConnect: Web Based Placement Management System

A web based placement management system built with **Django, HTML5, CSS, JS and Python**, to streamline the campus placement activities and bring transparency within the process. A student can track their applications, view available jobs and apply for them.
